[Description](#)

Website: Academy Bugs (<https://academybugs.com/store/>)

Steps to Reproduce:

1. Navigate to <https://academybugs.com>
2. Click the "Find Bugs" link in the navigation bar
3. Locate the results per page buttons at the top left (showing numbers like 12, 25, 50, etc.)
4. Click on any of these number buttons

Expected Result:

The page should update to display the selected number of products per page.

Actual Result:

The page freezes and becomes completely unresponsive after clicking any results per page button. Browser stops responding and requires force refresh or tab closure.

Impact:

- User cannot change results display settings
- Browser becomes unresponsive
- Requires closing tab or browser force quit in severe cases

Frequency:

This occurs every time any results per page button is clicked.

Environment:

Tested on Chrome browser, Windows 10.

Additional testing on Firefox shows same behavior.
